

PRODUCT OVERVIEW

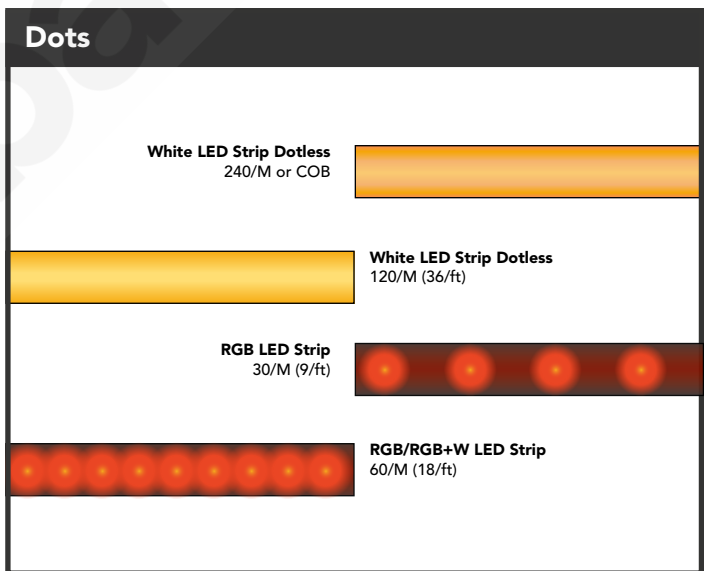

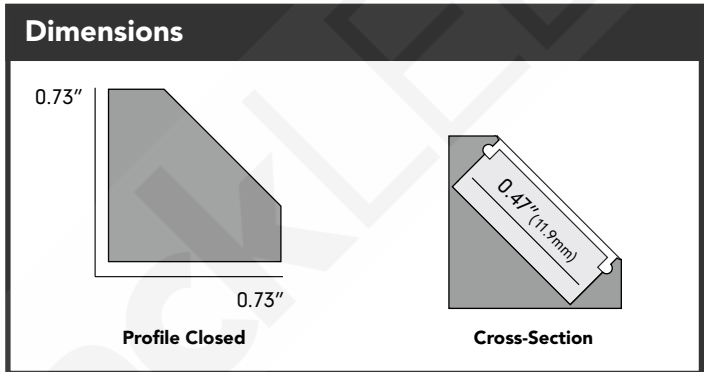

Aluminum Profile "H" is one of our most popular corner mounted aluminum housings for LED tape. The light is emitted at a 45 degree angle making it an excellent solution for under-cabinet, task and retail lighting applications. Aluminum Profile "H" is extruded from high-quality aluminum and anodized for added corrosion protection. It maximizes the lifetime of your LED strips by dissipating excess heat. When paired with one of our DOTLESS, high density LED strips, Aluminum Profile "H" can be used to create dot-free LED lighting. Aluminum Profile "H" can be used in exterior applications: around the soffit of a home to "wash" the walls with light. Aluminum Profile "H" can accommodate any LED strip up to 0.47" (11.9mm) wide. Aluminum Profile "H" is conveniently sold in 8ft lengths as a completed kit including one pair of endcaps and a choice of one premium UV resistant clear or frosted diffuser (lens).

Features

- Corner Mounted design for display cases, wall-units, and retail fixtures.
- Cuttable with any standard miter saw
- DOTLESS Lighting when used with our DOTLESS, high density UL-listed LED tape.
- Maximum Lifetime for your LEDs by dissipating heat and protection from damaging elements.

Specifications	
Part#	ALUMH-96
Length	8ft (94" for free shipping)
Width	0.73" (18.5mm)
Height	0.73" (18.5mm)
Lens Type	Frosted
MAX Light	3 Watts/ft (recommended)
MAX Strip Size	0.47" (11.9mm)
