

PRODUCT OVERVIEW

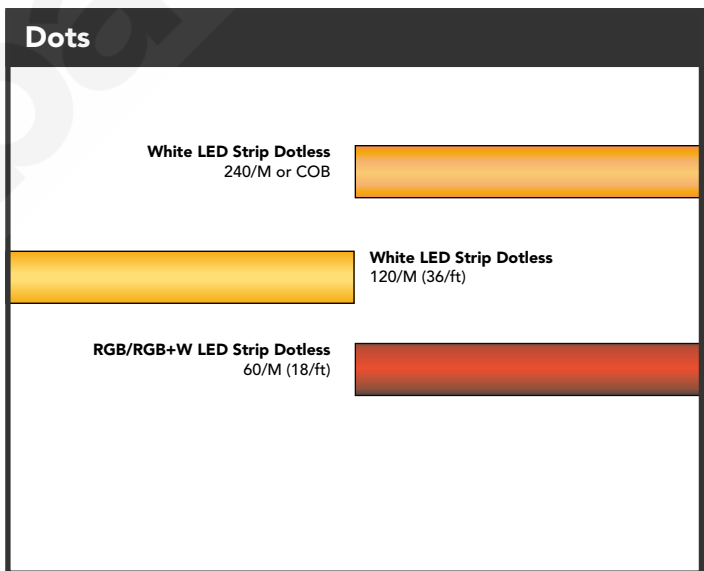

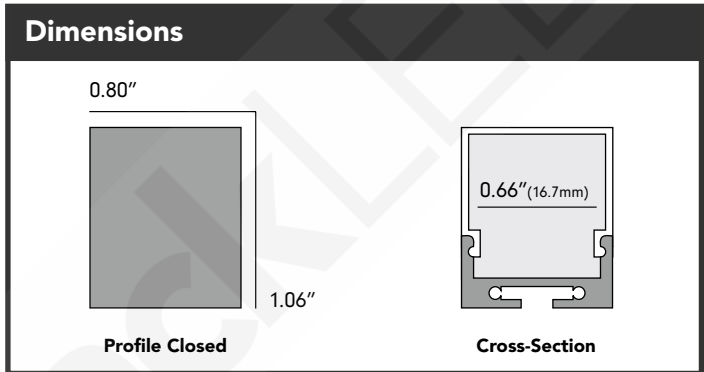

For sleek and attractive suspended linear lighting, use our Aluminum Profile "P" to add a modern architectural touch to your space. Aluminum Profile "P" can accommodate any high-output LED strip up to 0.66" (16.7mm) wide and dissipates the heat generated by your LED tape, maximizing its lifetime. The compact design and included suspension kit allow one to professionally suspend the fixture from ceilings without hassle. Create evenly diffused, dot-free lighting when paired with our high density, DOTLESS LED strips. Aluminum Profile "P" is conveniently sold in 8ft lengths as a completed kit including a pair of end-caps, suspension kit, and one white lens (diffuser).

Features

- Compact design makes for attractive slim and sleek suspended lighting.
- Perfect Solution for modern homes or offices.
- Maximizes Lifetime of LED strips by dissipating heat.
- Fast and Easy Installation using clips, or suspension kit.
- Cuttable with any standard miter saw.
