

# Product Overview

## Aluminum Profile T ALUMT Spec Sheet

Aluminum Profile "T" is a high-output corner(surface) mounted channel for suitable for high-output LED strips. It features a squared, double-sided lens which emits light at a 90 degree spread. It's high-output capacity makes it an excellent solution for retail and display lighting applications. When mounted at a distance from a wall, it can also be used for "wall washing" lighting designs. Aluminum Profile "T" can accommodate any high-output LED strip up to 0.80" (20.3mm) wide and can be installed with mounting clips or screwed directly into the mounting surface. Aluminum Profile "T" is conveniently sold in 6.5ft (78") lengths as a completed kit including a pair of end-caps, (3) mounting clips and one white or clear squared (diffuser).

### Features

- Easy to install directly to surface
- Design allows for use of high output LED strips with a narrow profile
- DOTLESS Lighting using our high density LED strips.
- Cuttable with any standard miter saw
- Can be used for "wall-wash" accenting

### Specifications

Part #	ALUMT-78
Length	6.5ft (78")
Width	1.18" (30.0mm)
Height	1.18" (30.0mm)
Lens Type	Clear or White
MAX Light	6 Watts/ft (recommended)
MAX Strip Size	0.80" (20.3mm)

### Dimensions

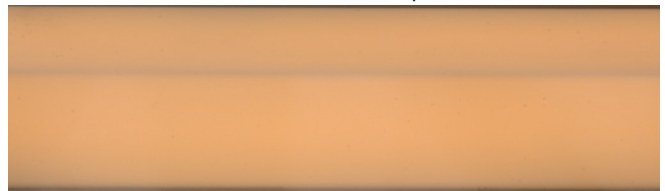

### Mounting

- **Direct Screw:** Counter-Sunk Mounting Screws. (Strip installed over screw)

### DOTS

120/M (36/ft) White LED Strip **DOTLESS**

60/M (18/ft) White LED Strip **DOTLESS**
