

# PRODUCT OVERVIEW

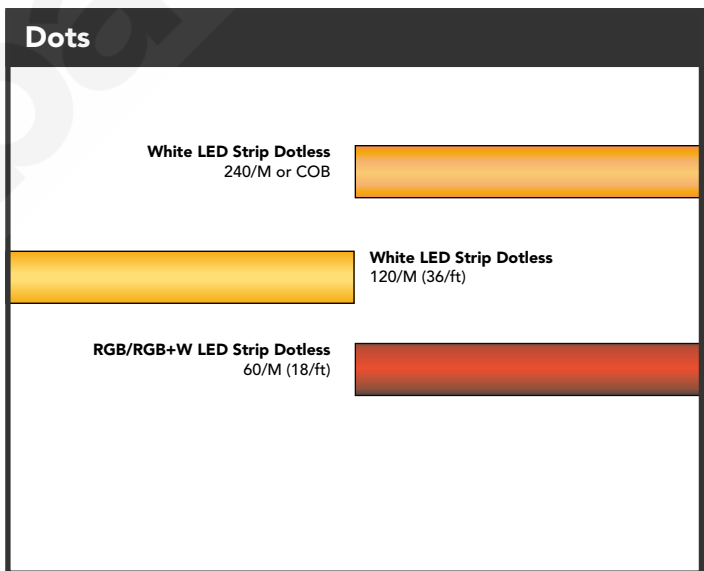

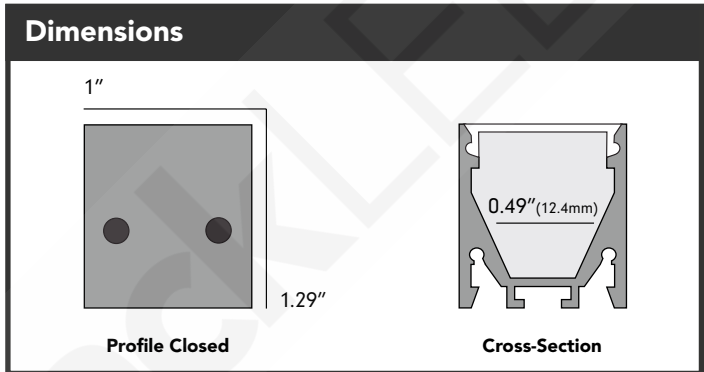

Our new, ultra-versatile solution for slim and compact LED fixtures, our Aluminum Extrusion "PR2" is here. Specifically engineered and designed for attractive slim finishes, this ultra modern profile features a V-shaped interior, allowing for smooth light diffusion and extra efficient heat dissipation. Its attractive squared lens gives the profile a seamless finish. "PR2" is designed to be suspended, but can also be easily surface mounted. With special mounting clips, this profile allows for seamless surface mounted. Create dot-free suspended LED lighting when paired with our high-density **DOTLESS** LED strips. Aluminum extrusion "PR2" can accommodate any high-output LED strip up to 0.49" (12mm) wide and is designed to properly dissipate their heat. "PR2" is conveniently sold in 6.5ft (78") lengths as a completed kit including a pair of end-caps, mounting clips, suspension kit and one frosted lens.

## Features

- **NEW Design!** Compact and Slim Housing for seamless attractive finish.
- Maximizes Lifetime of LED strips by dissipating heat.
- Cuttable using any standard miter saw.
- Fast and Easy Installation using included suspension kit, or mounting clips.
- Protect strips from the elements.
- Well-Stocked and Ready to Ship from our Miami, FL facility.

Specifications	
Part#	ALUMPR-78
Length	6.5ft (78")
Width	1.0" (25.4mm)
Height	1.29" (25.4mm)
Lens Type	Frosted
MAX Light	6 Watts/ft (recommended)
MAX Strip Size	0.49" (12.4mm)
