

# PRODUCT OVERVIEW

Aluminum Profile "D" is our most popular, compact recessed housing for LED strips. Requiring less than 1/2" of recessed depth, Aluminum Profile "D" can be used with our DOTLESS LED strips to create dot-free, evenly diffused lines of light making it a beautiful addition to any cabinet, closet, or kitchen. Made of premium anodized aluminum, Aluminum Profile "D" maximizes the lifetime of your LEDs with its excellent heat-dissipation qualities. Aluminum Profile "D" universally works with any waterproof or non-waterproof LED strip up to 0.47" (12mm) wide. Aluminum Profile "D" is conveniently sold in 8ft lengths as a completed kit including a pair of endcaps, and one premium polycarbonate UV resistant frosted lens. Order today to discretely accent your projects!
