

PRODUCT OVERVIEW

Aluminum Profile "D2" is a slightly narrower version of our Aluminum Profile "D." Its compact design features a ribbed recessed edge which is popular among cabinet workers for its high versatility when recessing into wood. Aluminum Profile "D2" can be used with our DOTLESS LED Strips to create evenly diffused, flush mounted lighting. Made of anodized aluminum alloy, with excellent thermal properties, Aluminum Profile "D2" maximizes the lifetime of any LED strip by dissipating excess heat. Aluminum Profile "D2" can accommodate any LED tape up to 0.43" (10.9mm) wide. Aluminum Profile "D2" is conveniently sold in 8ft lengths as a completed kit including a pair of end-caps and the choice of one premium polycarbonate, UV-resistant clear or frosted lens.

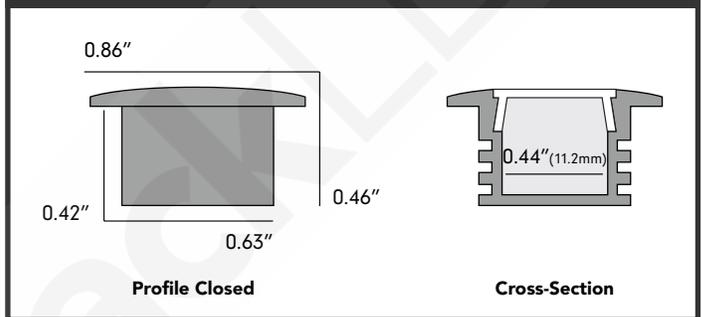

Features

- Popular Cabinet Lighting Solution.
- Compact design requires under 1/2" of surface depth.
- Cuttable with any standard miter saw.
- Flange conceals any rough-cuts in wood and drywall.
- Protects LED strips from the elements.
