

PRODUCT OVERVIEW

The rounded, semicircular lens of Aluminum Profile "F" has made it a popular solution for decorative linear LED lighting. The compact, rounded shape, makes Aluminum Profile "F" resemble the appearance of a neon tube. Its rounded diffuser allows it to evenly diffuse our high density DOTLESS LED strips, but also can be used with our medium output 60/M RGB LED strips to create even RGB Lighting. Extruded from a premium aluminum alloy, Aluminum Profile "F" acts as a heat-sink maximizing the life of any LED strip. Aluminum Profile "F" can accommodate any waterproof or non-waterproof LED strip up to 0.48" (12.2mm) wide. Aluminum Profile "F" is conveniently sold in 8ft lengths as a completed kit including a pair of end-caps, mounting clips, and your choice of a UV resistant **clear or frosted lens**.

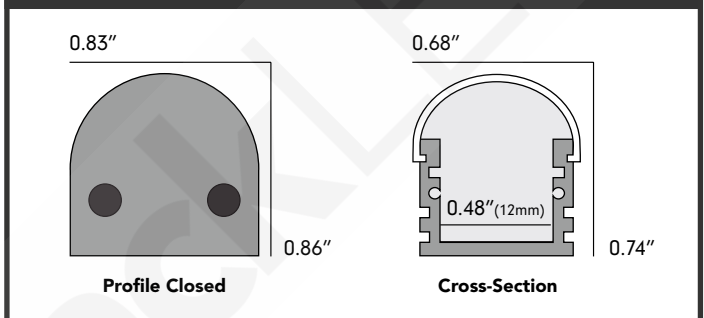

Features

- Compact, Rounded Shape resembles neon.
- Easily Conceal Lighting, or Use to make Lighting the highlight of your space.
- Cuttable with any standard miter saw.
- Maximizes LED Lifetime through heat dissipating design.
