

## PRODUCT OVERVIEW

Aluminum Profile "J2" is our slimmest and most compact aluminum extrusion for high-output LED strips. It features a powerful, heat-dissipating design, allowing it to safely house LED strips up to 6 Watts/ft without overheating and diminishing the lifetime of the LEDs. Aluminum Profile "J2" is a surface mounted aluminum housing for LED tape and is easily installed with clips. Aluminum Profile "J2" can accommodate any high-output LED strip up to 13.2mm (0.52") wide. Aluminum Profile "J2" is sold in 6.5ft (78") lengths and comes as a completed kit with one pair of endcaps, mounting clips, and your choice of a semi-clear or frosted diffuser (lens).

### Features

- Slim, compact housing designed for highoutput LED strips.
- Special Heat-Dissipating Design maximizes LED lifetime.
- Fast and headache-free installation using provided mounting clips.
- Popular for high-output task-lighting application.
- Cuttable with any Standard Miter Saw.

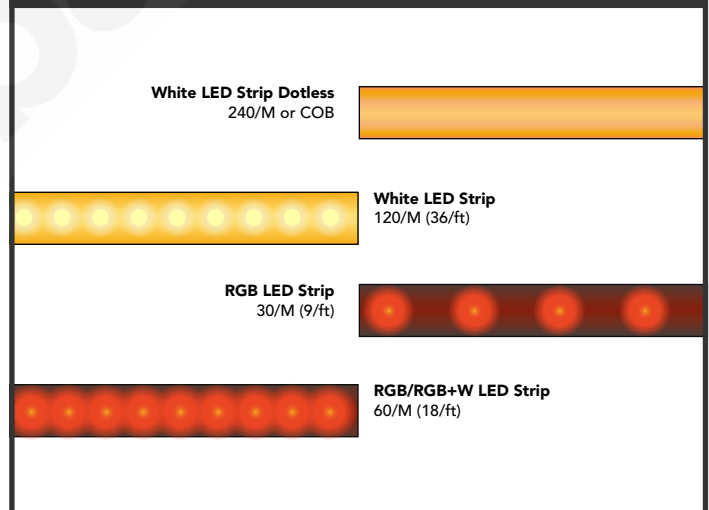

### Specifications

Part#	ALUMJ2-78
Length	6.5ft (78")
Width	0.67" (17.0mm)
Height	0.59" (15.0mm)
Lens Type	Frosted or Semi-Clear
MAX Light	6 Watts/ft (recommended)
MAX Strip Size	0.52" (13.2mm)
