

# PRODUCT OVERVIEW

Manufactured exclusively for **GlowbackLED**, Our new **LDS24V30W** is a Slim Linear 24V 30W Dimmable LED Power Supply suitable for a wide range of LED strip and linear lighting products. Our **LDS24V30W** can be used with any phase control dimmers (Forward Phase (Triac/MLV) and Reverse Phase (ELV). Unlike our older dimmable LED power supplies our **LDS24V30W** outputs consistent, flicker-free lighting which can be smoothly dimmed down to 1%. This Dimmable LED Driver features an **integrated wiring compartment**, allowing one to make clean connections inside of the power-supply with no need for external junction boxes. This slim, linear design makes our **LDS24V30W** an excellent solution for powering our LED strips inside of our Aluminum Profile P7, which has a dedicated slot for housing an LED power supply. The slim linear form factor also makes it a more compact solution for applications with limited space.

Strip Specifications	
Product Code	LDS24V30W
Dimensions	10.1" L x 1.1" W x 0.75" H
Input Voltage	100-277VAC   50/60 HZ
Output Voltage	24VDC
Output Power	30W   1.25A
Wiring	Screw in Terminals
Dimming Type	Universal Phase Dimming (TRIAC/MLV/ELV)
Warranty	5-Year Limited Warranty
Environment	Indoor/Damp Location
Listings	UL-Listed   Class-2   Type HL   RoHs   FCC

## Features

- **Compact, Slim, and Linear** Plastic Housing.
- **Universal Dimming** (Works with any forward or reverse phase dimmer), No Additional Wires Needed!
- **Flicker-Free! Smooth Light** Output with No Visible Flicker.
- Suitable for **Dry & Damp** Locations.
- **Comes with Screw-In wire terminals** for clean Installation!
- **Universal Voltage Input** Accepts 100-277VAC.
- **Guaranteed** by our 5-Year Warranty.
