Designed as an alternative to the uncomfortable face shields out on the market, our **Comfort Shield kit** allows you to convert your favorite cap or hard hat into an **ultra-comfortable** face shield. Our Comfort Shield kits include our durable, polycarbonate shield, and our shield molding which allows you to attach the face shield protection piece to your own cap brim or hard hat. Our Comfort Shield kit is designed to provide reliable head and face protection, but with unmatched comfort, making it an excellent solution for front-line COVID-19 essential workers in a wide variety of industries. For maximum comfort, purchase our Comfort Shield Kit with our Mask Gripping Cap which allows you to attach your mask directly to the cap.

Features

- **Stylish Design!** Turn your favorite cap or hat into a completed face shield
