

Installation Instructions

LVLYXX
120-277 or 347VAC Surface Linear Light Fixture

Direct Screw Installation

WARNING! Luminaire must be installed by a qualified electrician. Refer to local codes for proper installation. To prevent shock disconnect power before installation on service.

PROPER ANCHORS REQUIRED:

Mounting to stud is strongly recommended, but if mounting to drywall is necessary, suitable anchors are required. Anchors should be rated to hold **4X** the weight of the fixture.
