

PRODUCT OVERVIEW

A perfect low-profile solution for under-cabinet, shelf, and closet lighting applications, our Aluminum Profile "J" is our thinnest aluminum extrusion for LED strips, at just slightly over 1/4" (0.28") thick. Made of premium aluminum alloy, Aluminum Profile "J" draws the heat out of your LED strips to maximize their longevity. A universal housing for LED tape! Aluminum Profile "J" can accommodate any water-proof or non-waterproof LED strip up to 12mm (0.40") wide. Use with our 24V High Density 240/m LED Strip in order to achieve **dotless** lighting. Aluminum Profile "J" is conveniently sold in 8ft lengths as a completed kit including a pair of endcaps, mounting clips, and one premium polycarbonate, UV-resistant **frosted lens**.

Features

- Slim, low-profile design, for discreet linear LED lighting applications.
- Easily concealable.
- Cuttable with any standard miter saw.
- Increases Lifetime of any LED Strip through heat dissipation.
- Fast, headache-free clip mounting system.
- Protects LED Strips from water and elements.
