

PRODUCT OVERVIEW

Aluminum Profile "K" is a sleek and attractive corner mounted extrusion for low to medium output LED strips. It features a quarter-circle lens and emits light at a broad 90 degree beam. It is a popular LED lighting solution for kitchen cabinets, closets, display-cases, and retail lighting applications. Aluminum Profile "K" maximizes the lifetime and color quality of your LED strips by dissipating heat. When used with our high-density DOTLESS LED strips, Aluminum Profile "K" creates dot-free evenly diffused LED lighting. Aluminum Profile "K" can accommodate any LED tape up to 0.42" (10.6mm) wide. Aluminum Profile "K" is conveniently sold in 8ft lengths as a completed kit including one pair of endcaps, mounting clips, and your choice of a clear or frosted lens.

Features
