

# PRODUCT OVERVIEW

Aluminum Profile "N" is designed for interior floor recessed lighting. It features a heavy-duty, UV resistant poly-carbonate lens that can be stepped on or even driven over. It has a slim and low-profile design allowing it to be compatible with most floor types. The heavy duty aluminum extruded channel maximizes the lifetime of your LEDs by extracting excess heat. Aluminum Profile "N" can accommodate any waterproof or non-waterproof LED strip up to 11.9mm (0.47"). Aluminum Profile "N" is sold in 6.5ft (78") sections as a completed kit including one pair of end-caps and one heavy-duty frosted poly-carbonate lens/diffuser.

Specifications	
Part#	ALUMN-78
Length	6.5ft (78" for free shipping*)
Width	0.85" (21.6mm)   1.09" w/flange
Height	0.37" (9.4mm)   0.44" w/flange
Recess Cavity	0.85" W x 0.37" D
Lens Type	Frosted
MAX Light	3 Watts/ft (recommended)
MAX Strip Size	0.48" (12.2mm)

## Features

- Recess Lighting in Floors.
- Extra Heavy Poly Carbonate Lens can be stepped on or driven over.
- Heavy Aluminum Extruded Channel for maximum load capacity.
- Cuttable with any standard miter saw.
