

PRODUCT OVERVIEW

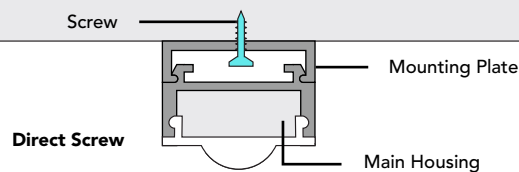

For simple yet modern architectural solutions for lighting such as wall grazing, Aluminum Profile "S3" is a perfect solution. Aluminum channel "S3" can accommodate any high-output LED strip up to 0.66" (16.8mm) wide, and properly disperse heat from the strip. The compact and slim design of it allows for use of high-output, ultra-bright LED strips with a narrow aluminum extrusion. Aluminum channel "S3" uses a special PMMA clear lens to focus the light beam to 30 degrees, making this ideal for wall grazing and accenting textures. The included mounting track makes installation very simple. Aluminum extrusion "S3" is conveniently sold in 6.5ft lengths as a completed kit including a pair of end-caps, mounting sleeve, and one premium PMMA clear 30 degree lens.

Features

- **Special Optics!** 30 Degree PMMA Lens Ideal for Wall Grazing applications!
- Light grazing optics **reveal textures** in walls and ceilings.
- **Maximizes Lifetime of LED strips** by dissipating heat.
- Easy to install with included mounting track.
- Slim and compact design allows for use of high output strips with a narrow channel.
- Well-Stocked and Ready to Ship from our Miami, FL facility.

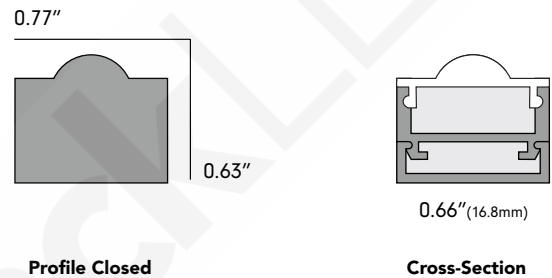

Mounting Options

Specifications

Part#	ALUMS3-96
Length	8ft (94" for free shipping)
Width	0.77" (19.6mm)
Height	0.63" (16mm)
Lens Type	Clear
MAX Light	10 Watts/ft (recommended)
MAX Strip Size	0.66" (16.8mm)
