

PRODUCT OVERVIEW

Aluminum Profile "V2" is a 1" wide extrusion suitable for housing high-output LED strips. It can be surface mounted as well as suspended from the ceiling using suspension kits. Its narrow and sleek design make it an excellent solution for general lighting in homes, offices, or commercial spaces. Aluminum Profile "V2" can accommodate any LED strip (or two rows of LED strip) up to 1.00" (25.4mm) wide (interior dimension). This extrusion protects your strip lighting from the elements as well as maximizes their longevity by dissipating excess heat. Pair with our high-density DOTLESS LED strips for evenly diffused, dot-free lighting. Aluminum Profile "V2" is conveniently sold in 8ft lengths and comes as a completed kit including one pair of end caps, a suspension mounting kit, and a UV-resistant frosted lens (diffuser).

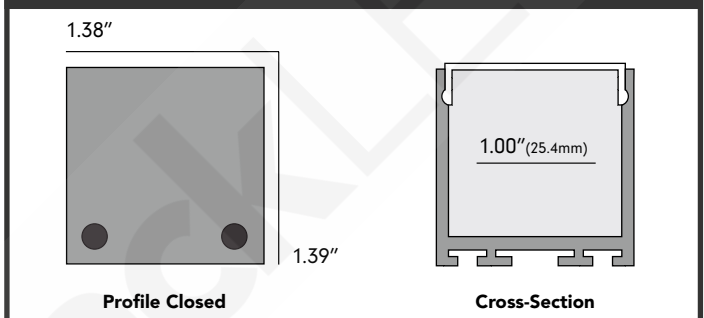

Features

- Attractive 1" wide linear lighting.
- Can be suspended or surface mounted to your project needs.
- Maximizes Lifetime of LED strips by dissipating heat.
- Slim and compact design suitable for use with high-output LED strips.
- Fast and Easy Installation using suspension kit.
