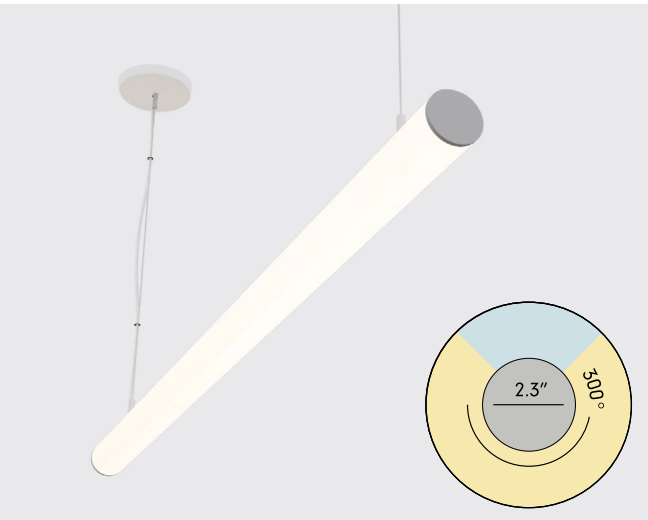
Linear LED Fixture Spec Sheet



Our **LVLBR2.3** is an attractive decorative suspended circular light fixture with a 2.3" diameter, available in custom sizes and configurations from **2-8ft**. Easily suspend from any ceiling type using the provided suspension kits. Its circular design gives it a decorative modern finish and a 360 degree light output, making this an attractive option for offices, retails stores, conference rooms, residences, and hotels.

Specifications

*[XX] denotes color temperature

Part#	LVLBR2.3-XX-YY-ZZ
Sizes	4ft, 6ft, 8ft Custom
Input Voltage	12VDC or 24VDC
Light Output	SO: 624 Lumens/ft (White)
Efficiency	104 Lumens/Watt
Color Rendering	>90 CRI, >95 CRI
Environment	Suitable for Dry or Damp Locations
Warranty	5-Year
Lifetime	70,000+Hours
Listings	UL-Listed
Dimming	0-10V Dimmable, Phase/TRIAC
Light Distribution	Down Light

Available Colors

- 2300K — Amber White
- 2700K — Incandescent White
- 3000K — Warm White
- 4000K — Natural White
- 6000K — Bright White
- CCT 2700K - 6000K — Tunable White
- RGB + 2700K — Color Changing + Warm White
- RGB + 6000K — Color Changing + Bright White

*Custom Available Upon Request

Finish Options

Standard

- Satin Aluminum

Custom

- Ruby Red RAL #3003
- Traffic Yellow RAL #1023
- Bright Orange RAL #2009
- Island Skye RAL #6027
- Beige RAL #1001
- Sky Blue RAL #5015

*Extended lead times for custom RAL finishes. Any RAL color can be selected in addition to the one shown

Features

- 12-24VDC Input.
- **Dimmable** (Pair with Dimmable Driver).
- 90+ **CRI** Standard, 95+ available.
- 624 **lumens/ft**.
- Suspension Kits Included!
- **Waterproof Available Upon Request.**
- Made in the **USA** Quick Ship!
- **UL-Listed**.

Typical Lumen Table

Product Size	SO
4ft	2,496 LM / 24W
6ft	3,744 LM / 36W
8ft	4,992 LM / 48W

*Based on standard sizes with 4000K Color Temperature

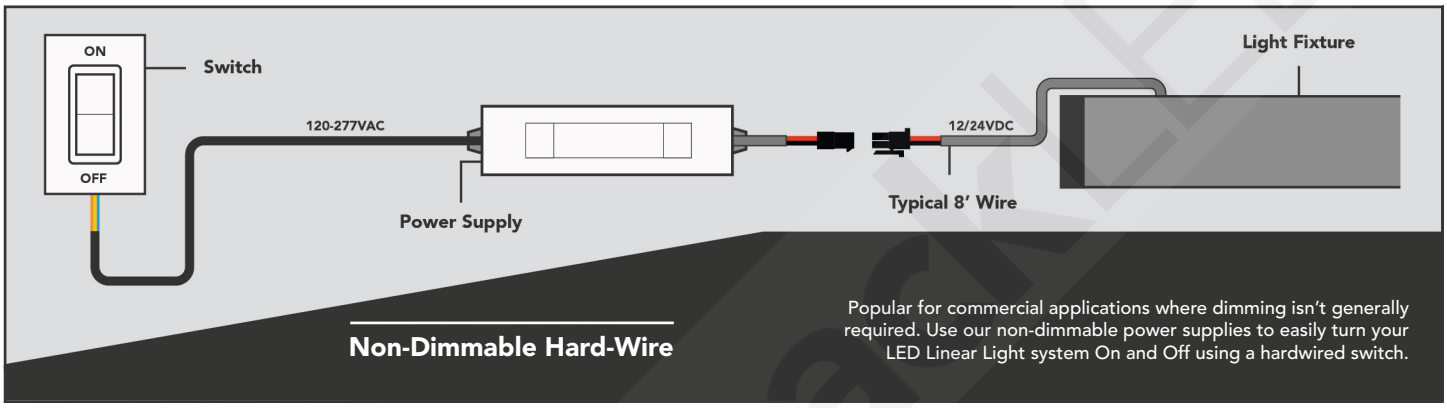
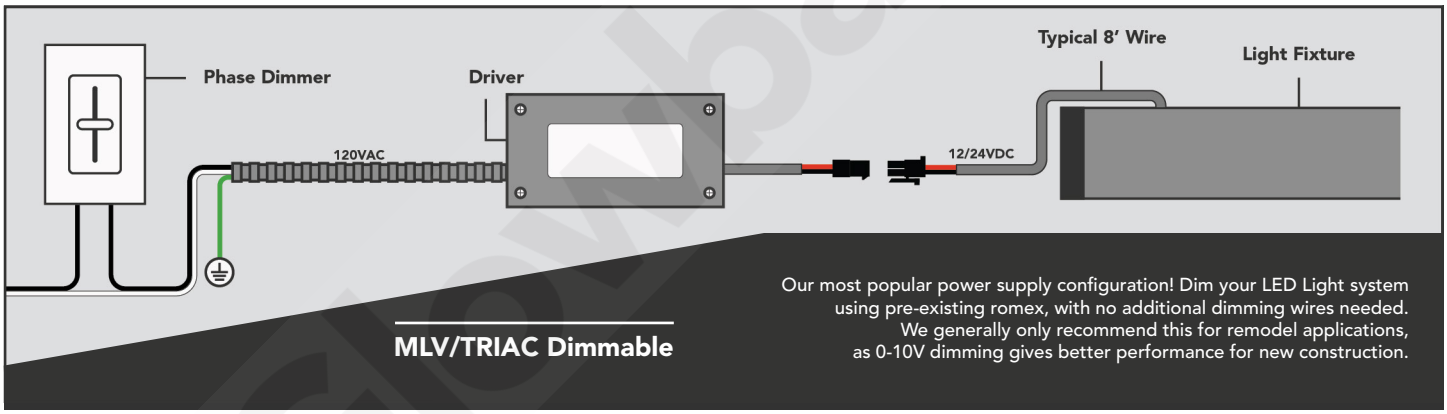
Non-Dimmable Adaptor

Recommended for small linear LED fixture installations, or cabinet lighting applications. Simply plug the adaptor into any US wall outlet, and connect the Linear Light. This is a Non-Dimmable Power Supply.



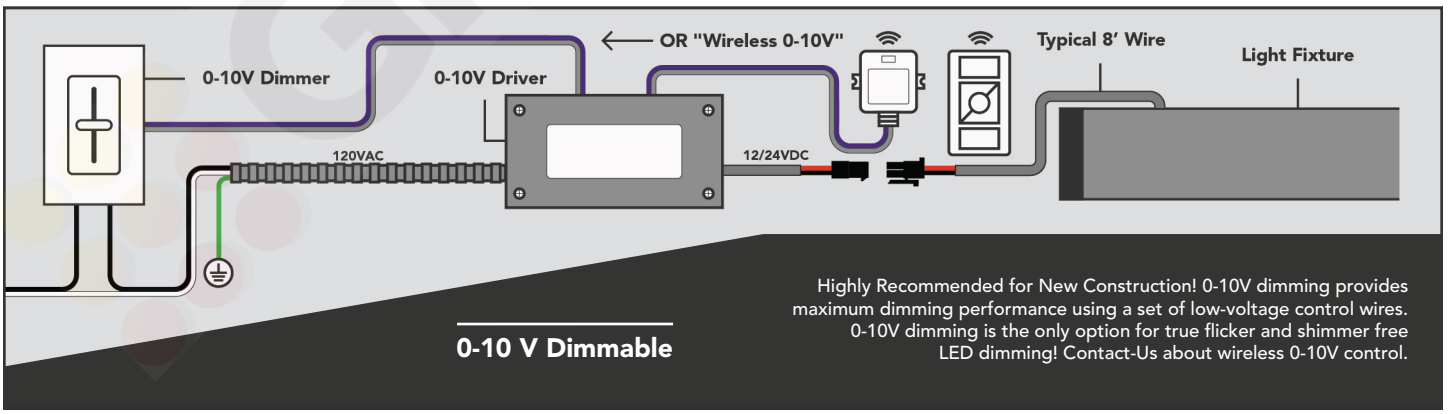
Non-Dimmable Hard-Wire

Popular for commercial applications where dimming isn't generally required. Use our non-dimmable power supplies to easily turn your LED Linear Light system On and Off using a hardwired switch.



MLV/TRIAC Dimmable

Our most popular power supply configuration! Dim your LED Light system using pre-existing romex, with no additional dimming wires needed. We generally only recommend this for remodel applications, as 0-10V dimming gives better performance for new construction.



0-10 V Dimmable

Highly Recommended for New Construction! 0-10V dimming provides maximum dimming performance using a set of low-voltage control wires. 0-10V dimming is the only option for true flicker and shimmer free LED dimming! Contact-Us about wireless 0-10V control.

All of our LED Panels require a remote power supply and/or controller to operate. Seamlessly integrate our LED Panel systems with any type of home or building automation system. Unless otherwise specified, all LED Panel systems, including power supplies and controllers are shipped to you pre-configured, to facilitate installation. Power-Supplies will come "rigged" with connectors to match the connectors coming off the LED panels. When ordering, simply give us some details about the level of control that you want, and our team will design a turn-key control system fit to meet your needs.

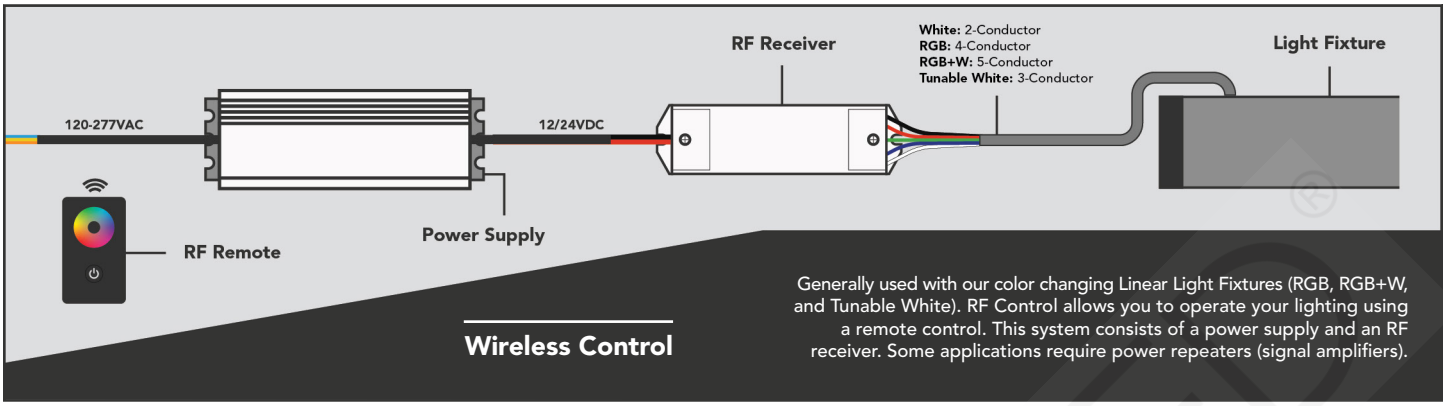
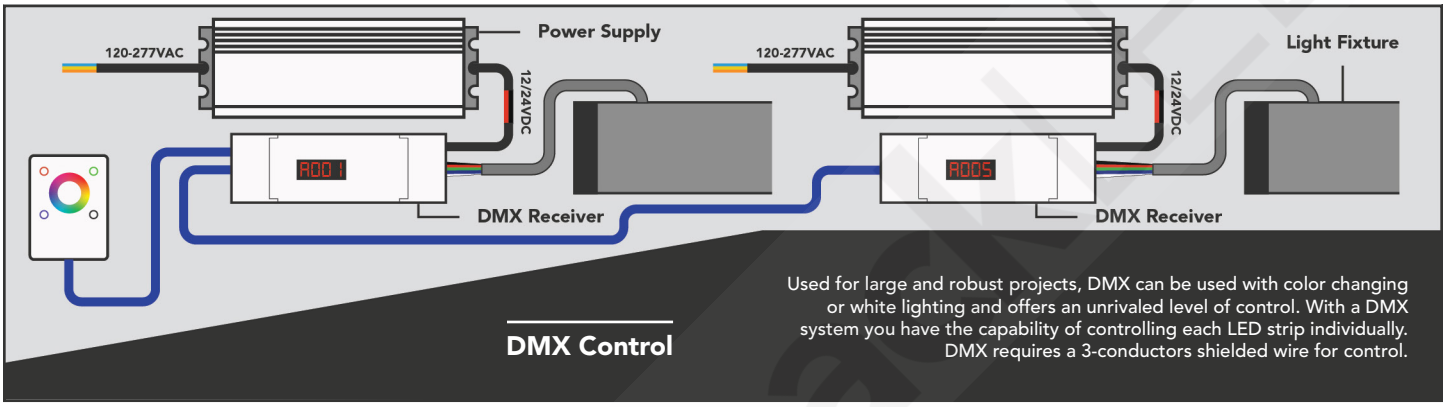
LVLBR2.3-XX-YY-ZZ
Pendant Mounted Linear Lighting



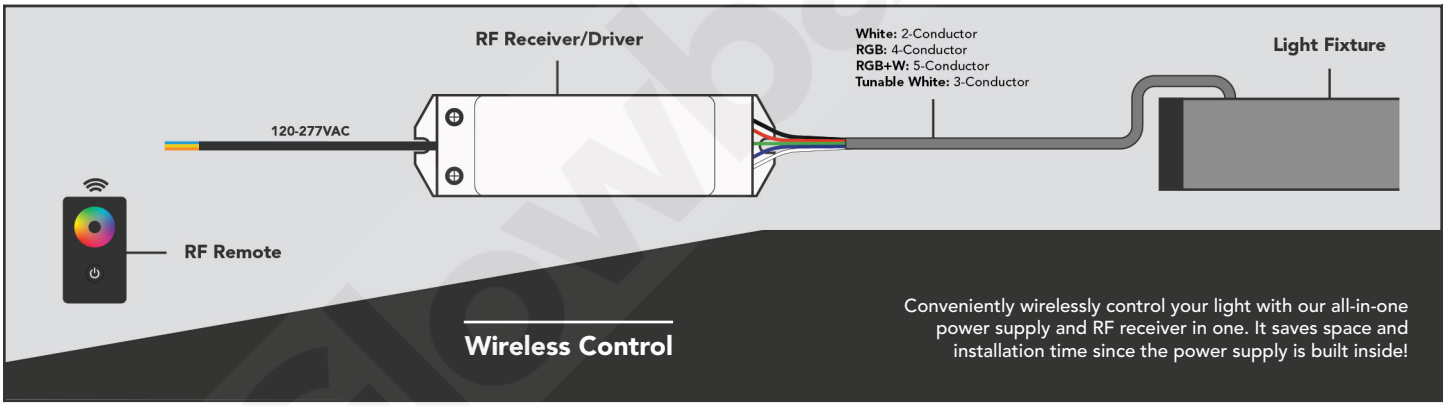
Wireless Control

Generally used with our color changing Linear Light Fixtures (RGB, RGB+W, and Tunable White). RF Control allows you to operate your lighting using a remote control. This system consists of a power supply and an RF receiver. Some applications require power repeaters (signal amplifiers).



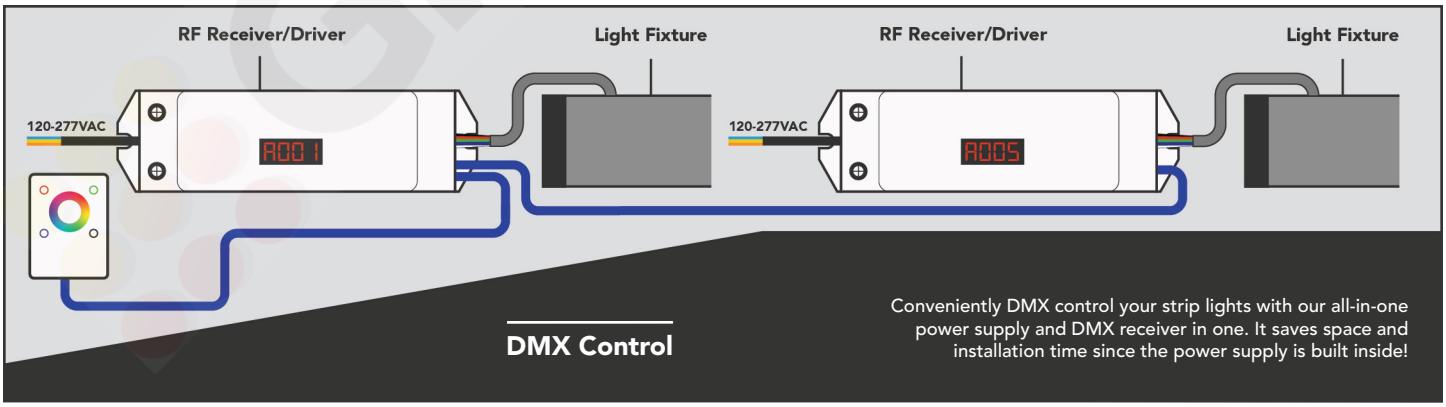
DMX Control

Used for large and robust projects, DMX can be used with color changing or white lighting and offers an unrivaled level of control. With a DMX system you have the capability of controlling each LED strip individually. DMX requires a 3-conductors shielded wire for control.



Wireless Control

Conveniently wirelessly control your light with our all-in-one power supply and RF receiver in one. It saves space and installation time since the power supply is built inside!



DMX Control

Conveniently DMX control your strip lights with our all-in-one power supply and DMX receiver in one. It saves space and installation time since the power supply is built inside!

All of our LED Panels require a remote power supply and/or controller to operate. Seamlessly integrate our LED Panel systems with any type of home or building automation system. Unless otherwise specified, all LED Panel systems, including power supplies and controllers are shipped to you pre-configured, to facilitate installation.
