

Linear LED Fixture Spec Sheet

Our **LVLBY23** LED Light Fixture is perfect for use in commercial or residential areas. Our **LVLBY23** is a 2 inch wide line-voltage recessed linear LED light fixture capable of holding high output strips, making it suitable for a wide variety of linear lighting applications and an excellent solution for lighting garages, warehouses, or industrial lighting. With a slight flange, this fixture can be seamlessly recessed into any surface with at least 3" of depth while hiding any imperfections in the mounting surface.

Our **LVLBY23** features an integrated driver that allows one to plug the fixture directly into the line-voltage power source of the location. This fixture is available in standard sizes ranging from 24" - 96"

custom sizes available upon request as one continuous run, or in longer runs which can be achieved through linkable or custom configurations.
